

RON STEEL Ph.D.

EDUCATION & STATUS

Ph.D. Glasgow, Scotland, 1971
Permanent resident in USA since 1995.

RESEARCH AND JOB EXPERIENCE:

August 2003-present:

Professor and Davis Chair
University of Texas, Austin

July 2000-2003:

Wold Professor of Energy and Professor of Geology & Geophysics,
Dept. of Geology & Geophysics, University of Wyoming

February 1999-July 2000:

Interim Director, Institute of Energy Research,

February 1995-Present:

Wold Professor of Energy, Professor of Geology & Geophysics, University of Wyoming.
Professor adjunct, UNIS, Svalbard

August 1990-February 1995:

Professor of Sedimentology and Reservoir Geology, University of Bergen

May 1984-August 1990:

Chief Geologist, Norsk Hydro, Oslo

RESEARCH INTERESTS:

My research is aimed at using clastic sedimentology to address problems in basin analysis, and particularly to decipher the signatures of tectonics, climate, sea level change and sediment supply in stratigraphic successions.
